

Nearest London Underground Stations – Vauxhall (Victoria Line)

Nearest Rail Station - Vauxhall - South West Trains (4 mins from Waterloo)

Exiting the Tube Station

- After passing through the ticket barriers walk, find exit 4 – signposted for Vauxhall over-ground Rail station.

On exiting, turn back on yourself (towards Starbucks) and walk towards, then under, the railway bridge, keeping to the right-hand side of the road. After the bridge, you need to go straight ahead – this involves crossing the main road on your left to reach the ‘island’ in the middle of the two roads, then crossing to your right. You are now on South Lambeth Road. Follow the road down for a short distance (200 m) until you reach some low-rise office buildings on the right – there will be a park opposite. Our door is no 70, the last entrance, opposite Fentiman Road on the junction with Miles Street and just before you get to the church. Press the SAFed intercom button for access. We are on the first floor.

Exiting the Railway Station

- After descending the stairs from the platform, walk to the front exit of the station (near the station shops). On leaving the station, turn left, then follow the instructions as above.

If you are Driving

We have a car park at the rear of our offices. The entrance is off Miles Street.

As you enter Miles Street, the car park entrance is the first on the right. Please telephone for us to let you in.

NB: South Lambeth Road is the A203.

Press the SAFed intercom button for access. We are on the first floor.
